

Meeting week 9

Meeting	Week 9	Date	14/09/2026
Time	6h30pm – 7h45pm	Location	Discord
Attendees	Phuc Lam Vo Duy Ly Daniel Fitton Liam Korver		

Purpose

This meeting is to discuss what we need to do for submission 1 and checkpoint 3.

Meeting Summary

In this meeting, we discuss the final core functional prototype of our application after a week of fixing bugs and refactoring code. We also discuss the presentation slide made by Leon and see what should be changed, added to ensure that it follows the recommended sequence from the lecturer.

Decisions Made

Decision	Reason or Notes
Split videos into different people: - Introduction: Dan - Agile Planning, Demo, Collaboration: Leon - UI Design: Andy - Java code and tests: Liam	
Refactor services, models, tests into domains	
Prepare the scripts for the video demo	
Begin writing better description for different archetypes: Dan
